Green Diamonds

From Johannesburg, South Africa comes announcement of the recent discovery of "pale green diamonds" from a new mine in the northern cape province. These diamonds are markedly different in color from any others found before. As yet it is not certain what element or perhaps variation of crystalline structure may be present to produce this unusual color phenomenon.

Similarly, we might add, we are not sure, even to this day, what makes "rose" quartz pink.

WANTED

Man with knowledge of gemstones and experience in cutting. Please state qualifications and wages expected when replying to:

LIZZADRO MUSEUM OF LAPIDARY ART
220 Cottage Hill Ave.
Elmhurst, Illinois 60126

ROCKS AND MINERALS

A MONTHLY magazine
for Collectors

If you collect

Rocks—Sands—Pebbles
Crystals—Ores—Gems

ROCKS AND MINERALS
is your magazine
Founded in 1925

\$4.00 per year—80 pages
Sample copy 35¢

Box 29—Dept. ES, Peekskill, N.Y.

Gems & Minerals

The Magazine that Shows You How

Illustrated articles on:

GEMS—GEM CUTTING—JEWELRY
MINERALS—FOSSILS—FIELD TRIPS

Over 29,000 gem and mineral hobbyists already use and enjoy GEMS & MINERALS.

You can too . . .

Only \$4.00 per year. Sample copy — 25¢.
